

BRENTWOOD PHARMACY
761 Suffolk Ave , Brentwood , NY , 11717
Phone#: 6312733314 Fax#: 6312738863

Drug NDC: 00168-0417-30
Drug Name: TACROLIMUS

How should I use this medicine?

This medicine is for external use only. Follow the directions on the prescription label. Wash your hands before and after use. If treating a hand infection, wash hands before use only. Before applying this medicine, be sure your skin is completely dry. Apply a thin layer to the affected areas. Rub in gently and completely. Do not bathe, shower, or swim right after applying this medicine. This could wash off the ointment. Do not cover with a bandage or dressing unless your doctor or health care professional tells you to. You can wear normal clothing. Do not get this medicine in your eyes. If you do, rinse out with plenty of cool tap water. Do not use your medicine more often than directed. A special MedGuide will be given to you by the pharmacist with each prescription and refill. Be sure to read this information carefully each time. Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once. NOTE: This medicine is only for you. Do not share this medicine with others.

Where should I keep my medicine?

Keep out of reach of children. Store at room temperature between 15 and 30 degrees C (59 and 86 degrees F). Throw away any unused medicine after the expiration date.

NOTE: This sheet is a summary. It may not cover all possible information. If you have questions about this medicine, talk to your doctor, pharmacist, or health care provider.

What should I watch for while using this medicine?

Improvements to your skin may occur after the first few weeks of treatment. Even though your skin looks better, it is important to keep using the ointment as instructed by your health care provider. Tell your health care professional if your condition does not get better within the first few weeks of treatment or if it gets worse. This medicine can make you more sensitive to the sun. Keep out of the sun. If you cannot avoid being in the sun, wear protective clothing and use sunscreen. Do not use sun lamps or tanning beds/booths. While you are using this medicine, drinking alcohol may cause the skin or face to become flushed or red and feel hot. Let your health care provider know if you notice such reactions, especially if they bother you.

What is this medicine?

TACROLIMUS (ta KROE li mus) is used on the skin to treat eczema.

This medicine may be used for other purposes; ask your health care provider or pharmacist if you have questions.

What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions: cold sores or shingles; decreased immune function; Netherton's syndrome; receiving any form of light therapy (phototherapy, UVA, or UVB) to your skin; skin infection; an unusual or allergic reaction to tacrolimus, other medicines, foods, dyes, or preservatives; pregnant or trying to get pregnant; breast-feeding.

What if I miss a dose?

If you miss a dose, use it as soon as you can. If it is almost time for your next dose, use only that dose. Do not use double or extra doses.

What side effects may I notice from receiving this medicine?

Side effects that you should report to your doctor or health care professional as soon as possible: chickenpox infection; cold sores or shingles; extreme tiredness; skin bleeding or change in your skin's appearance (color, change in a mole or freckle, new growth); skin infection or infection of hair follicles; swollen glands; Side effects that usually do not require medical attention (report to your doctor or health care professional if they continue or are bothersome): headache; increased sensitivity of the skin to hot or cold temperatures; irritation at the site or sites where you apply this medicine including stinging, soreness, a burning feeling, tingling, or itching; muscle pains; nausea.

This list may not describe all possible side effects. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.
